Zipper Friendship Bracelet

Materials List:

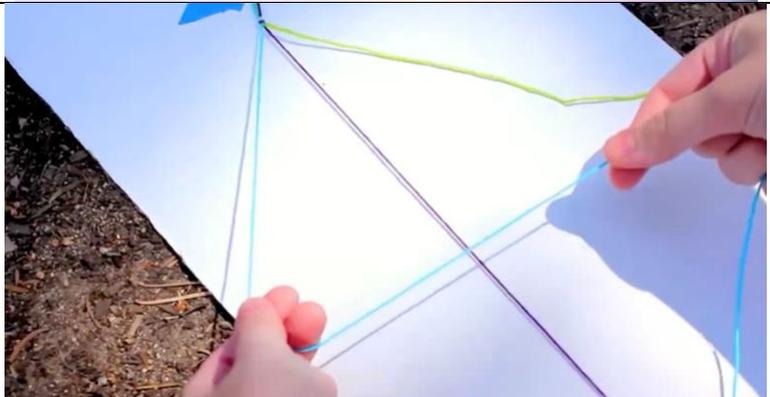

- 3 different colors of string
- safety scissors
- tape

Instructions:

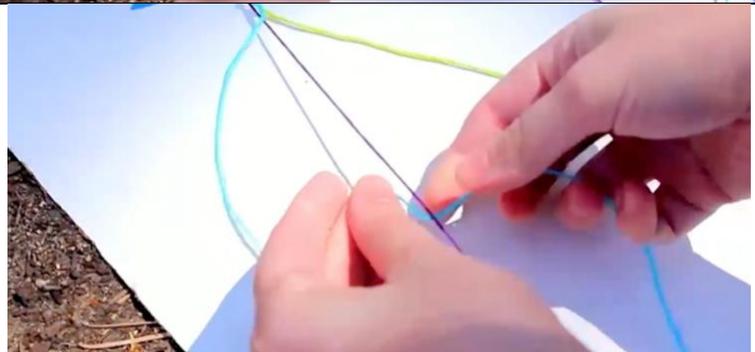

1. Cut 24 inches of each color string. Tie them together with a knot that is a couple of inches from the top. Tape the string down on a hard surface.

2. Start by taking your left string and making a number 4 shape.

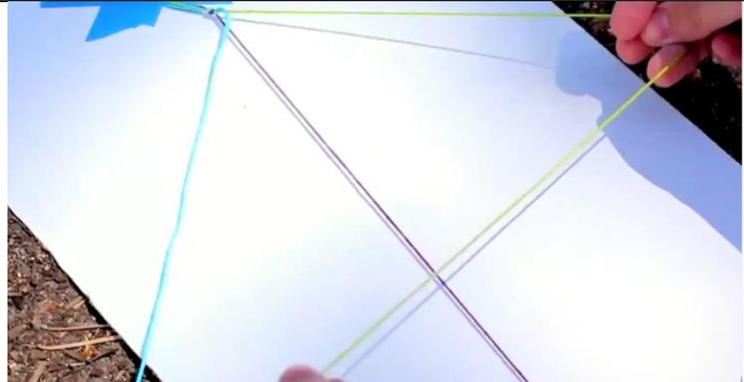

3. Loop the left string under and through the middle string, pulling it tight to make a knot.

4. Do the same thing on the right side, but this time making a backwards 4. Loop the right string under and through the middle string and pull tight to make a knot.

5. Keep going through this same process, going back and forth between the left and right string. Do this until the bracelet is long enough to fit around your wrist.

Paper Poem Pocket

Materials List:

- paper
- safety scissors
- glue

Instructions:

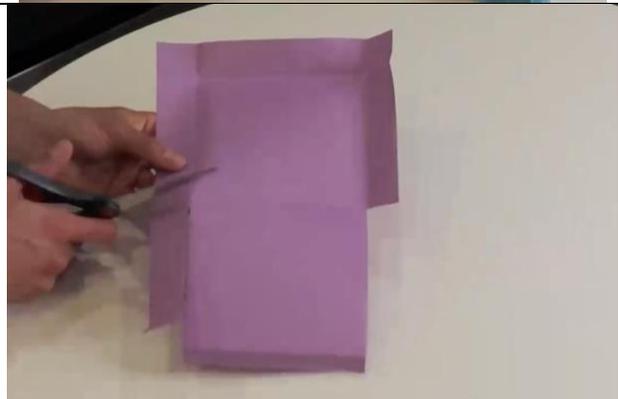

1. Start by folding your paper in half, about $\frac{3}{4}$ of the way from the top.

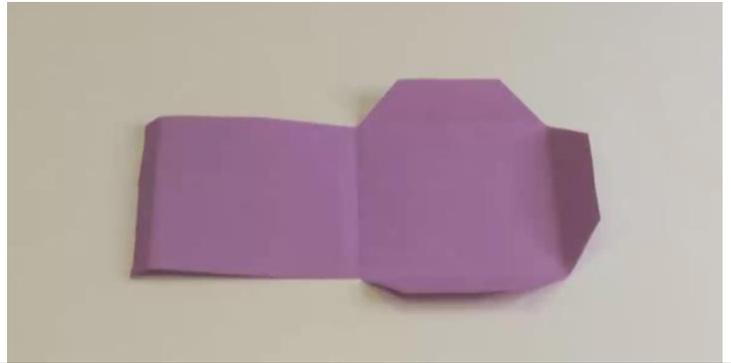

2. Then, fold the sides and the top about an inch deep

4. Unfold the paper and cut the sides off the bottom half.

5. Snip off the corners on the top half.

6. Fold in the sides, add some glue, and smooth. Be sure to leave an opening at the top. Let the glue dry and now you have a perfect portable pocket.

Super Strong Paper Shapes

Materials List:

- 3 pieces of construction paper
- tape
- books

Instructions:

1. Place a piece of paper flat on a table. Roll until on side meets the other. Tape the edges together to form a cylinder. Set aside.

2. Place a new piece of paper flat on a table. Fold the paper 2 times, first taking one side and folding it toward to the middle. Then fold the other side, this time all the way to the end. Tape the edges to form a triangular prism. Set aside.

2. Place a new piece of paper flat on a table. To make a rectangular prism you will need to make 3 folds. Take the first side and fold it right before the middle. Fold it again, this time make sure to leave some space before the end. Then, fold it all the way over to the end. Tape the edges.

5. Which shape do you think will be the strongest? Place books on top of each shape to see which can hold the most books!
