The Great OUTDOORS

AMERICA OUTDOORS with BARATUNDE THURSTON

The Great MUSLIM AMERICAN ROAD TRIP
WITH SUMMER IN FULL SWING, it’s the perfect time to enjoy the great outdoors. Whether your plans involve hiking, biking, sailing, or roadtripping, THIRTEEN is here to help jump-start your adventures with series that explore the history, culture, and breathtaking beauty of the great outdoors.

**America Outdoors With Baratunde Thurston** (Tue Jul 5th-Aug 9th, 9 p.m.), a six-part travel and adventure series, follows the *New York Times* bestselling author (*How to Be Black*), podcaster (*How to Citizen With Baratunde*), and outdoor enthusiast as he explores diverse regions across the U.S. and how those landscapes shape the way Americans work, play, and interact with the outdoors. Along the way, he meets a vivid cast of characters, from coal-miners-turned-beekeepers in Appalachia to Black surfers catching waves in Los Angeles.

The three-part series **The Great Muslim American Road Trip** (Tue 5th-19th, 10 p.m.) follows a millennial Muslim American couple—rapper Mona Haydar and her husband Sebastian Robins—on a cross-country journey along historic Route 66 as they explore Islam’s deep roots in America. Highlights include a visit to the grave of a famous Syrian-born camel driver, discovering traces of America’s first Muslim explorer from the 1500s, and more.

Sir David Attenborough travels the globe to reveal the secret, incredible world of plants in the five-part series **The Green Planet** (Wed Jul 6th-Aug 3rd, 8 p.m.). Experience a plants-eye view of life in a rainforest, observe the amazing survival tactics of desert plants, and discover how humans are helping plants that are facing extinction.

Season 2 of **Expedition With Steve Backshall** (Wed Jul 6th-Aug 10th, 10 p.m.) follows the intrepid explorer and naturalist and his team of experts in six new episodes as they dive with sharks in Mexico’s Pacific Coast, search for apes in Africa’s unexplored jungles, and more.

**GardenFit** (Saturdays, 6:30 a.m.), hosted by expert gardener Madeline Hooper and personal fitness trainer Jeff Hughes, helps everyday gardeners take care of their bodies while taking care of their gardens.

Fans of our *Nature* series can enjoy full episodes at pbs.org/nature and catch up on Season 1 of the **Going Wild With Dr. Rae Wynn-Grant** podcast (available free on Apple Podcasts, Spotify, and other podcast listening apps).

**In Their Element: Earth, Air, Fire, Water** (perilandpromise.org), a four-part digital **Peril & Promise** series, visits four Indigenous communities who respond to climate change impacts by building better lives and taking control of their futures.
Exploring Hate: Legacy Archive Project
pbs.org/exploringhate

FOR NEARLY 60 YEARS, The WNET Group has been a leading provider of award-winning, innovative, expertly produced programming for public television. Exploring Hate, our reporting initiative on the roots and rise of antisemitism, racism, and extremism in America, makes this robust catalog of content featuring those who fought for social justice available to the public with the Legacy Archive Project.

Join us each month as we revisit this rich archive to unearth 50 documentary films and series on the Black experience, Indigenous rights, and antisemitism. The collection includes rare interviews with Dr. Martin Luther King, Jr., James Baldwin, Muhammad Ali, Malcolm X, and other civil rights leaders; Holocaust survivor and renowned author Elie Wiesel; and many more.

New additions released regularly. Learn more and explore the archive at pbs.org/exploringhate.

Major funding for The Legacy Archive Project is provided by Denise R. Sobel.
